WORK EXPERIENCE

Data Analyst Intern | CapitalCore Outsourcing Limited, Lagos **10/2022 – Present**

- Developed a predictive model for Trip Transaction Data using Excel and Power BI, resulting in 20% increase in real savings. With this predictive model this model gave the company greater insight into their data and allowed them to make more informed decisions about resource allocation, they were able to uncover trends and insights that would have been impossible to detect otherwise.
- Handled a Project Management Report, each project was on track and progressing according to schedule and there was a 30% increase in the work done daily which led to the completion of the task before the deadline. which found that the total projects were divided into three categories: in-progress, completed, and not yet started. Moreover, the report also highlighted the daily status of each project, and for the most part, Finally, it outlined the success metrics for each project.
- Created a Power BI dashboard to showcase sales turnovers this also resulted in a 35% increase in sales turnover. in a visually-appealing way, enabling stakeholders to easily identify which regions yielded the highest turnover rates. Moreover, the same dashboard was used to track changes in sales turnovers over time. This enabled us to monitor key metrics and efficiently recognize any issues or areas of improvement. Moreover, the Same dashboard was used to track changes in sales turnovers over time. This enabled us to monitor key metrics and efficiently recognize any issues or areas of improvement.
- Collaborated with the company's data analysts, programmers, engineers, and organizational leaders, I worked to guarantee data management compliance and accuracy across their systems and we had a work increase of 30%. With my expertise, I assessed the existing system for security, dependability, and accuracy. I also developed strategies for reducing data-related risks while keeping the data in line with company standards plus industry and legal regulations.

Data Analyst Apprenticeship | CapitalCore Outsourcing Limited, Lagos
10/2022 – Present

- Partnered directly with the company's data analyst to transform data and helped my superiors to build dashboard for a super market and boots yearly revenue by 35% in 2021 using power bi.
- Accomplished the analyzing of data using Power Bi, and I interpreted the outcomes to present meaningful insights.
- Analyzed and owned a shooting incidence of a region, and presented the results of my analysis in a clear visual format using charts, graphs, and maps revealing insights that could help reduce potential shooting incidence in the.
